Amalia Opincariu

Junior Web Developer
Cluj, România

Rezumat

I'm dedicated and passionate about web and front-end development.
I really enjoy working with React.JS. Open for new projects.

I'm a person oriented to self-improvement, a good observer, and I
have good attention to detail. In all my experience until now, I have
accumulated valuable knowledge in working with people.

I like simple solutions.

Scope, Events, DOM, JSON
- JavaScript Advanced Functions Scope, Closure, Hoisting Object Methods,
Prototypes, ECMAScript 6,
JavaScript BOM, AJAX
- Introduction to React JS (architecture, virtual DOM), JSX Components
(props, state, lifecycle), Forms (refs, routing), Events (DOM events, component
events)

SC Pur si Simplu Bumb SRL
Pattern Maker/Designer
august 2020 - august 2022 (2 ani 1 lună)

Cluj, România

Owner and administrator - responsible for sales, marketing and production

La Donna Fashion
Pattern Maker
august 2015 - aprilie 2021 (5 ani 9 luni)
Cluj, România

Operating in CAD System - Gemini

- realization of basic patterns

- making changes to the patterns according to the pre-established models and
the materials used

- execution of product gradations

- execution of framings and optimization of material consumption

- making prototypes

- identification of the right technology for the realization of the production

- creating a database with the technological data sheets of each product

- coordination of the team in order to make the product according to the
designer's sketch

- optimization and efficiency of working methods

- approval of the first piece and supervision of series production

- establishing the consumption/need of raw materials

Guara
Textile Engineer
iulie 2009 - august 2015 (6 ani 2 luni)
Cluj, România

- cad operation, programs specific to the textile industry

- realization of basic patterns

- making prototypes and making related modifications

- making changes to the patterns according to the pre-established models and
the materials used

- execution of product gradations

- execution of framings and optimization of material consumption

- making prototypes

- identification of the right technology for the realization of the production

- creating a database with the technological data sheets of each product

JOLIDON
Textile Engineer
septembrie 2008 - iulie 2009 (11 luni)
Cluj, România

-operation in CAD Lectra

- execution of graduations, the difference between sizes, for linen products

- product sizing

- making the technical sketch and the product sheet

Faurecia
Quality young engineer
2006 - 2008 (2 ani)
Sibiu, România

Performing product and process audits in the production area;
